

## INDEX

## A

- Abscess**, 87, 183  
 and gum bubble, 72  
 begins with a cavity, 6, 45  
 diagnosis and treatment, 87  
 flip chart presentation, 28-29  
 treat at once before infection reaches the bone, 6  
 treat pregnant women now, 178-179
- Acetaminophen (paracetamol)**  
 dental kit supply, 164  
 dose for pain, 88
- Acid**  
 causes tooth decay and gum disease, 7, 48, 183  
 some sugars make acid more easily, 53
- Adrenaline (epinephrine)**, 130, 165
- Alcohol**, for disinfecting without heat, 85
- Allergies to medicines**  
 and extractions, 147-148  
 penicillin warning, 165
- Anemia**, 116, 178, 183
- Anesthetics**, local, 130-131  
 dental kit supply, 167
- Antibiotics**, 88, 183  
 dental kit supply, 165  
 doses for tooth abscesses and other problems, 88  
 injections, 166  
 precautions, 165  
 sulfadimidine, 117  
 warning on tetracycline, 61
- Arkansas stone**, 122
- Aspirating syringe**, 132, 169, 183
- Aspirin**, 88  
 correct dose for pain, 88, 165  
 dental kit supply, 164  
 do not hold against teeth, 165

## B

- Baby teeth**, 60-63  
 ages when baby teeth come in, 41, 62  
 begin forming before birth, 60  
 do not cause diarrhea and fever, 63  
 how baby teeth grow and stay strong, 61  
 knocked out: diagnosis and treatment, 91  
 loose, 52  
 make space in mouth for permanent teeth, 62  
 marks on baby teeth, 60  
 why baby teeth are important, 62
- Bacteria** (See Germs)
- Bandage, head**, for a broken jaw, 104
- Berry juice**  
 used to show coating of germs on teeth, 51
- Bicycle-powered dental drill**, 145
- Bleeding**  
 and extractions, 147, 179  
 from socket: diagnosis and treatment, 112  
 how to place a suture, 155-156  
 in the mouth: possible causes (chart), 110
- Bleach**, for disinfecting without heat, 85
- Blood**  
 boil any instrument that has touched blood, 83  
 (Also see Bleeding)
- Blood pressure**, 112, 179
- Blood vessel**, 44
- Bone**  
 bone chips inside tooth socket, 160  
 broken: diagnosis and treatment, 102-106  
 damage from gum disease, 40  
 three main bones in the face, 102
- Bones** of animals, 39
- Books** on dental care, 180
- Bottle feeding**, 3, 61
- Breast feeding**, good for teeth, 3
- Broken bone**, 102-106
- Broken root**, 159
- Broken tooth**, 90
- Brushing teeth** (See Cleaning teeth)
- Brushstick** (homemade toothbrush), 4
- Bubble** (See Gum bubble)

## C

- Cancer**, 119, 184  
 can begin with white lines inside mouth, 99  
 diagnosis, 119  
 look for a sore that does not heal, 100
- Candy**, 9  
 (Also see Sweet foods)
- Cancrum oris (noma)**  
 diagnosis and treatment, 115-118
- Canker sores**, diagnosis and treatment, 100
- Cartridges** of injectable anesthetic, 129-130, 167
- Cavities (caries)**, 184  
 can begin as marks on baby teeth, 60  
 can become abscesses, 45  
 can make teeth hurt, 44  
 caused sometimes by baby bottles, 3  
 diagnosis and treatment, 86

## Index C-D-E

### Cavities (continued)

- fill cavities before abscess forms, 6
- flip chart presentation, 28-29
- on neck of tooth, 86, 167
- puppet show about, 31-32
- school survey, 47

### Cement fillings (See Fillings)

**Chair** for examinations and extractions, 73, 150

**Cheek bone**, 102

**CHILD-to-child program**, 22

### Children

- as health workers, 22
- can clean their own teeth, 54
- cannot learn well if their teeth hurt, 18
- want to learn, 17
- young children should not take aspirin, 88, 165

### Cleaning instruments, 73, 82-85

- after extractions, 161-162
- after filling a tooth, 144
- after scaling, 128
- disinfecting without heat, 85
- how to sterilize syringes, 132
- pressure cooker, 84
- sterilizing with steam, 83-84
- wash your hands, too, 82

### Cleaning teeth, 54, 67-70

- can help sore gums, 7
- CHILD-to-child activities, 22, 51
- especially important for persons who take certain medicines, 109
- experiment to find the best way, 56
- flip chart presentation, 29
- how to clean a baby's teeth, 61
- how to clean between teeth, 69-70
- how to make a brushstick, 4
- how to make a child's toothbrush, 61
- how to make waxed floss, 172
- make it part of a daily school activity, 57
- parents should clean children's teeth, 11, 16, 61
- pregnant women must take special care, 178
- 'protected areas' that are hard to clean, 4
- soft toothbrush is best, 4, 68
- (Also see Gum disease, Scaling teeth)

**Coating of germs** on the teeth, 48

**Cola drink**, in experiment on decay, 46

### Cold sores (fever blisters)

diagnosis and treatment, 98

**'Colonies' of germs** on the teeth, 48, 185

**Comparative diagnosis** (telling similar problems apart), 77

**Cotton rolls**, 140, 167

**'Cowhorn' forceps**, 149

do not use on baby teeth, 154

**Curette (for scaling teeth)**, 122

## D

**Demonstration**, 24, 46

**Dental floss**, 69-70, 172

**Dental kit**, supplies for, 163-173

**Dental mirror**, 73, 171

**Dental tools** (See Instruments)

**Dental workers**, can visit schools, 33

### Dentures, 157-158

- bad dentures cause sore mouth, 101
- sores under, diagnosis and treatment, 100

**Diabetes**, and extractions, 147-148

**Diagnosis** (See Examination and diagnosis)

### Diagnosis charts, 77-80

- loose tooth, 78
- sore mouth, 79
- sores, 79-80
- swelling, 78
- toothache, 77
- trouble opening or closing mouth, 80
- (Also see Comparative diagnosis)

**Diet** (See Nutrition)

**Dilantin (diphenylhydantoin)**, 109

### Dislocated jaw

- after extraction, 161
- diagnosis and treatment, 107

### Disinfectant, cold

for cleaning certain instruments, 85, 168

**Drama**, for teaching about tooth problems, 24

**Drawing pictures**, 29

**Drill, dental**, 145-146

**Dry socket**, diagnosis and treatment, 111

## E

**Elevators** for extractions, 149-150, 169

how to use, 152

### Epilepsy

and swollen gums: diagnosis and treatment, 109

**Epinephrine (adrenaline)**, 130, 165

**Epulis**, 127

**Erythromycin**, 88

dental kit supply, 164

**Eugenol (oil of cloves)**, 139, 167

### Examination and diagnosis, Chapter 6, 184

- bleeding in the mouth (chart), 110
- different problems come at different ages, 75
- examining inside the mouth, 73
- four steps to a good diagnosis, 74
- how to check the gums, 72
- look for sores, 72
- questions that help you make a diagnosis, 71, 74

**Examination and diagnosis** (continued)

- telling similar problems apart, 77
- tetanus, 112
- touch the sore place, 76
- where to examine, 73
- (Also see Diagnosis charts)

**Excavator**, 139**Expiration date**, 164**Extractions, Chapter 11**

- before you begin—ask questions! 147
- four problems to watch for, 148
- how to take out a tooth, 151-158
- instructions: what to do afterward, 157-162
- instruments needed, 148-150
- pregnant women need not wait, 178-179
- problems afterward, 110, 159-161
- three reasons to take out a tooth, 147

**F****False teeth**, 157-158

(Also see Dentures)

**Fever blisters**, diagnosis and treatment, 98**Filing teeth** to correct a bad bite, 93**Filling tool**, 139, 152**Fillings, Chapter 10**

- filling material, 139, 167
- how to place, 140-144
- instructions for after you place a filling, 144
- instruments needed, 139
- lost or broken: diagnosis and treatment, 86
- permanent fillings, 145-146
- puppet show about, 31-32
- two kinds, 138
- what a filling can do, 138
- when not to place a filling, 137
- when to place a filling, 138

**Fish bone**

- can get caught under gums, 127

**Flannel-boards**, 26, 181**Flesh**, left inside socket after extraction, 160**Flip charts, 27-29, 181**

- example, 28-29

**Flossing** (cleaning between teeth), 69-70, 172, 185**Fluoride**, 22, 68, 185

- on neck of tooth, 86, 167
- rinse and paste to prevent cavities, 167

**Food** (See Nutrition)**Forceps** for extractions, 149, 169**Fracture** (See Broken bone, tooth, root)**G****Game** ('Scatter!'), 49**Generic name**, 164**Germ**s, 185

- discussion about, 49
- health workers must not spread germs, 82-85
- impossible to kill! all germs in mouth, 48
- where they hide, 83

**Gingivae, gingivitis** (See Gums, Gum disease)**'Go foods'** (energy foods), 65-66

- warning about, 66

**Grooves on teeth**, 86, 167, 185**Gum boil** (See Gum bubble)**Gum bubble**, 45, 72**Gum disease, 50-51**

- description, 40, 50
- diagnosis and treatment, 95
- flip chart presentation, 28-29
- home care for, 51
- how gum disease makes teeth fall out, 40
- learning activity about, 51
- noma: diagnosis and treatment, 115-118
- picture of, 7
- possible cause of a sore mouth, 79
- prevent gum disease during pregnancy, 178
- serious gum disease: diagnosis and treatment, 8, 95-97, 115-118

**Gum pocket**, 50, 125, 185**Gums**

- definition, 185
- importance of, 1, 35
- infected gums (noma): diagnosis and treatment, 115-118
- healthy and unhealthy gums: description, 50
- how to examine, 72
- swollen gums and epilepsy medicine, 109
- swollen gums and pregnancy, 178-179
- why gums can feel sore, 7, 50

**H****Hands**

- wash before you touch someone's mouth, 82

**Head bandage** for a broken jaw, 104**Heart disease**, and extractions, 147-148**Heat**, can lower swelling, 88**Hemorrhage**, and extractions, 147-148**Hemostat**, 155**Herpes virus**, can cause fever blisters, 98**Hydrogen peroxide**, 8

- warning: do not use too much, 8

**Hygiene (keeping clean)**, 82-85**I****Incisors**, 37

# Index I-J-K-L-M-N

## Infection, 185

- can pass from tooth to bone, 45
- dental workers can infect others, 82
- description of infected gums, 50
- during pregnancy, 177-179
- in sinus: diagnosis and treatment, 89
- in spit gland: diagnosis and treatment, 113

## Injections, Chapter 9, 166, 185

- how to give injections to children, 135
- injections of antibiotics, 166
- sterilization of syringes, 132
- two types of syringe, 129-130
- use an aspirating syringe, 132
- instructions for after you give an injection, 136

## Instructions

- what to do after extracting, 157-162
- what to do after injecting, 136
- what to do after placing a temporary filling, 144
- what to do after scaling, 127

## Instruments, 169-173, 185

- boil any instrument that has touched blood, 83
- buying instruments, 173
- for examination, 73
- for extractions, 148-150
- for filling teeth, 139
- for scaling, 122
- making your own instruments, 170-172 (Also see Cleaning instruments)

## I.R.M. (Intermediate Restorative Material), 139

## J

### Jamaica

- dental workers' description of gum disease, 40

### Jaw bone, 39

- broken: diagnosis and treatment, 102-106
- dislocated: after an extraction, 161-162
- dislocated: diagnosis and treatment, 107
- three main bones in face, 102

### Joint, 185

- pain in: diagnosis and treatment, 108-109

## L

### Learning (See Teaching)

### Lidocaine (lignocaine), 130

- dental kit supply, 167

### Ligature wire, 104, 185

### Loose teeth, 52

- diagnosis and treatment, 93
- possible causes (charts), 78, 93

## M

### Main food, 65-66

### Malaria, can contribute to noma, 115

### Malnutrition, 185

- cavities can help cause, 60
- often made worse by Vincent's Infection, 96 (Also see Nutrition)

### Mango string, can get caught under gums, 127

### Measles

- can cause dry, sore lips, 101
- can contribute to noma, 115

### Medicines in dental kit, 164-166

### Mepivacaine, 131

### Milk-oil drink

- for persons who cannot eat properly, 105

### Mirror, 73, 171

### Molars, 37, 41, 186

- ages when molars grow in, 41
- baby molars, 62
- first permanent molar is often the first permanent tooth, 62
- infection in new molar: diagnosis and treatment, 94
- new molar can cause face to swell, 64
- often grow in badly, 41
- taking care of, 64

### Mouth

- trouble opening and closing (chart), 80
- white lines inside the mouth can be cancer, 99

## N

### Neck of a tooth, grooves in, 86, 167

### Needle, hypodermic

- disposable, for oral anesthetic, 167
- used to wire a broken jaw, 106

### Nerve of a tooth, 44, 186

- main trunks and small branches, 130-131

### Nerve treatment (See Root canal treatment)

### Noma (cancrum oris)

- diagnosis and treatment, 115-118
- prevention, 118

### Nutrition, 65-66, 186

- eat a mixture of foods, 11, 65-66
- eat enough food, 65
- flip chart presentation, 29
- foods for persons who cannot eat properly, 105
- foods that make gums stronger, 7, 8
- foods that we cannot eat without teeth, 36
- good and bad foods, 53
- good and bad sweets, 3
- grow foods in your own garden, 11

**Nutrition** (continued)

- pregnant women need Vitamin C, 178
- tooth pain can interfere with nutrition, 60

**Nystatin**, 99, 164

**O****Oil**

- prevents rust when sterilizing instruments, 83

**Oil of cloves**, 139

**P****Pain**

- aspirin or acetaminophen can help, 88

**Penicillin**, 87-88, 164-166

- almost always taken by mouth, 87
- dental kit supply, 164
- dose taken by mouth, 88, 164
- injectable, 166
- precautions, 165
- take entire dose, 87, 165

**Permanent teeth**, 41, 52, 186

- knocked out: diagnosis and treatment, 91
- need good baby teeth before them, 62

**Phenytoin** (See Dilantin)

**Pictures**

- as a teaching aid, 26, 35-36
- tracing, 29

**Plaque**, 48, 186

- disclosing solution (berry juice), 51

**Plays**, 24

**Posters**, 26, 181

**Pregnancy**, 177-179

- and dental problems, 75, 177-179
- women must take special care, 95
- story about, 177-178

**Pressure cooker** for sterilizing instruments, 84

**Prevention**, 33, **Chapter 5**, 186

- early treatment is a form of prevention, 59
- foods that are good and bad, 53
- (Also see Cleaning teeth, Nutrition)

**Probe**, 73, 171

**Pronunciation**, why teeth are important for, 36

**Puppet shows**, 30-32

- example, 31-32

**Puzzles**, 25

**R**

**Records**, 174, 186

**Reports**, 175, 186

**Rinsing the mouth**

- during pregnancy, 178

- with hydrogen peroxide, 8
- with salt water, 7

**Root of the tooth**, 39

- broken: diagnosis and treatment, 159
- count roots before taking out a tooth, 153
- has a nerve and blood vessel, 44
- pushed into sinus, 160

**Root canal (special nerve treatment)**, 45

**Root fibers**, 39, 186

**S**

**Salivary gland (spit gland)**

- infection in: diagnosis and treatment, 113

**Salt water rinse**, 7

**Scalers**, 122

**Scaling teeth, Chapter 8**

- instruction for after you scale teeth, 127
- instruments for, 122, 169
- only scale teeth of someone who will keep teeth clean, 121

**'Scatter!'** (game), 48-49

**School**

- cleaning teeth can be a daily health activity, 57, 167
- school lunch program, 55
- (Also see Teaching)

**Scientific method** for making diagnosis, 74

**Sewing up a wound (suturing)**, 155-156

**Sharpening stone**, 122

**Shots** (See Injections)

**Sinus**

- infected, diagnosis and treatment, 89
- root pushed into sinus, 160

**Slides** for teaching about dental health, 180

**Socket**, 187

- broken root inside, 159
- painful (dry socket): diagnosis and treatment, 111
- painful, 161

**Soreness** in mouth, possible causes (chart), 79

**Sores**

- at corners of mouth: diagnosis and treatment, 101
- different problems come at different ages, 75
- from a denture: diagnosis and treatment, 100
- on the face, 114
- on lips, cheek, and tongue, 72
- types of face sores (chart), 80
- types of mouth sores (chart), 79

**Spatula**, for cement fillings, 139

**Spit gland**

- infection in: diagnosis and treatment, 113

## Index S-T

### Spoon

- for extractions, 149
- for fillings, 139
- making your own, 172

### Sterilization, 83, 187

- with steam, 84

### Story telling, 24, 177-179

- about pregnancy and dental care, 177-178

### Sugar

- some kinds make acid more easily, 53
- sugar cane is not as bad as candy, 9
- (Also see Sweet foods)

### Sulfadimidine, 117

### Surveys, 176, 187

- as a way of learning numbers, 22, 23
- counting cavities, 47, 176
- counting teeth, 42-43
- to find the best way to clean teeth, 56

### Sutures, 155-156

### Sweet foods, 9, 44, 53

- avoid fizzy drinks, 11
- can cause cavities and gum disease, 6-7
- learning activities, 46
- some are called 'go foods', 65-66

### Swelling

- and epilepsy medicine, 109
- and pregnancy, 178-179
- after extractions, 110, 160
- different problems come at different ages, 75
- from a tooth abscess, 6, 45
- heat can lower swelling, 88
- may be a new molar coming in, 64
- possible causes (chart), 78

### Syringes

- aspirating, 132, 166, 169
- for injections: two kinds, 129-130
- (Also see Injections)

## T

### Tartar, 50, 187

- can be a sign of gum disease, 76
- how to scale, 121
- makes gums sore, 8

### Teachers

- can teach without dental worker's help, 34

### Teaching

- 'association of ideas', 12
- by example, 55
- community can be part of classroom, 23
- each person can teach another, 12
- finding the best way to teach, 13-16
- finding the best place to teach, 15
- how to scale (scrape away) tartar, 121
- learn from the people, 13

- let students discover for themselves, 18, 21
- repetition helps people remember, 15
- teach yourself before teaching others, 2
- teaching family and friends, **Chapter 2**
- teaching school children, **Chapters 3, 4**
- teaching so that learning can happen, 19-23
- with demonstrations, 24
- with drama, 24
- with posters and pictures, 26
- with puzzles, 25
- with story telling, 177-179
- (Also see School)

### Teeth

- and gums, 1
- broken, 90
- four problems to watch for, 71
- how many teeth we should have, 41
- importance of, 1, 35
- injuries to: diagnosis and treatment, 90-92
- learning about anatomy, 47
- loose: diagnosis and treatment, 52, 93
- naming teeth with numbers, 174
- new tooth coming in:
  - diagnosis and treatment, 94, 95
- rotting in cola drink (experiment), 46
- what holds teeth, 39
- what makes teeth hurt, 44
- why some teeth look different, 37
- (Also see Baby teeth, Loose teeth)

### Teeth, false, 157-158

- (Also see Dentures)

### Teeth, taking out, Chapter 11

- (Also see Extractions)

### Teething: diagnosis and treatment, 95

### Tension

- can cause pain in joint, 108-109

### Tetanus

- diagnosis, 112

### Tetracycline, can hurt baby teeth, 61, 164

### Theater, 24

### Thrush: diagnosis and treatment, 99

### Tongue blade (tongue depressor), 73, 168

### Tools (See Instruments)

### Tooth (See Teeth)

### Tooth abscess (See Abscess)

### Toothache

- possible causes (chart), 77
- why teeth hurt, 44
- (Also see Abscess)

### Toothbrushes

- how to make your own, 4-5, 21
- how to make a brush smaller for a child, 61
- soft is best, 4

### Tooth decay

- can touch nerve and cause an abscess, 6
- flip chart presentation, 28
- (Also see Cavities)

**Tooth injuries**

- broken tooth: diagnosis and treatment, 90
- booth knocked out: diagnosis and treatment 91-92

**Toothpaste, 5, 67****Tracing pictures, 29****Traditional beliefs, 10, 13, 187**

- about pregnancy, 177
- building new traditions from old ones, 14

**Treadle-powered dental drill, 145****Treatment, Chapter 7**

- can be given during pregnancy, 177-179
- early treatment prevents serious problems, 2
- list of treatments, 81

**Trench mouth: diagnosis and treatment, 96****Tumor, diagnosis and treatment, 119****Tweezers, how to make, 171****V****Vegetable soup (special drink)**

- for those who cannot eat properly, 105

**Vincent's Infection of the gums**

- can worsen and become noma, 115-118
- diagnosis and treatment, 96-97

**Vitamin C, 178****W****Wax, to replace a knocked-out tooth, 92****Wire, ligature, 104****Wisdom teeth (3rd Molars) (See Molars)****X****X-rays**

- for knocked-out teeth, 92
- to look at new tooth growing in, 94
- warning about pregnant women, 179

**Z****Zephiran, 168****Zinc oxide, 139, 167**
